

Home View

The Home View diagram shows a light green rectangular container. At the top is a light blue rectangular header labeled "Header". Below the header, centered, is the text "Login". Underneath "Login" is a light purple rounded rectangle containing three elements: a white rectangular input field labeled "Username", another white rectangular input field labeled "Pwd" directly below it, and a yellow rectangular button labeled "Btn" at the bottom.

Logged In Menu View

The Logged In Menu View diagram shows a light green rectangular container. At the top is a light blue rectangular header labeled "Header". Below the header, there are two light purple rounded rectangles stacked vertically. The top one contains the text "Acct Info Btn", and the bottom one contains the text "New Entry Btn".

Account Info View

The Account Info View diagram shows a light green rectangular container. At the top is a light blue rectangular header labeled "Header". Below the header is a large light purple rounded rectangle. Inside this rectangle, at the top, is the text "User Name". Further down, centered, is the text "Account Info".

New Entry View

The New Entry View diagram shows a light green rectangular container. At the top is a light blue rectangular header labeled "Header". Below the header is a large light purple rounded rectangle. Inside this rectangle, at the top, is the text "Entry Form". Below "Entry Form" are five white rectangular input fields, each labeled "Property Field", stacked vertically. At the bottom of the purple rectangle is a yellow rectangular button labeled "Submit".

Entry List View

The Entry List View diagram shows a light green rectangular container. At the top is a light blue rectangular header labeled "Header". The rest of the container is empty.

Details View

The Details View diagram shows a light green rectangular container. At the top is a light blue rectangular header labeled "Header". The rest of the container is empty.
